

01 SMALL TALK

Have you ever made a little money from a hobby or skill?

When you start something new, do you like quick results or a strong base first?

Do you usually save the photos or files of things you make?

02 POP QUIZ — DOES THIS SOUND NATURAL?

1 ~~"My company is very welfare."~~

✓ "My company has great benefits."

"welfare"는 형용사가 아니라 명사예요. 회사 복지는 benefits로 말하고 great/good으로 꾸며요.

2 ~~"I want to develop myself."~~

✓ "I want to grow professionally."

"develop myself"는 직역체예요. 일에서는 grow professionally, 넓게는 improve my skills가 자연스러워요.

3 ~~"I resigned my job."~~

✓ "I quit my job."

resign은 바로 목적어를 못 받아요. 일상에서는 quit my job, 격식은 resign from my position이 맞아요.

AI Side Hustles — Portfolio or Fast Money?

🇰🇷 BACKGROUND

AI 툴을 배워서 부업으로 연결하고 싶을 때, 포트폴리오를 먼저 쌓을지 바로 돈 되는일부터 찾을지 고민이 생겨요. 포트폴리오는 오래 남는 증거가 되지만 시간이 걸리고, 빠른 수익은 동기부여가 되지만 실력이 깊어지기 전에 일만 따라갈 수도 있어요. AI 부업의 핵심은 툴을 많이 아는 게 아니라, 실제 문제를 어떻게 해결했는지 보여주는 거예요. 돈과 기록 중 무엇을 먼저 잡을지에 따라 방향이 달라집니다.

📖 READ BEFORE WE TALK

AI side hustles can look attractive because the tools are easy to use and the market feels fast. But learning a tool is not the same as having a service people will pay for. A portfolio shows your process, taste, and problem-solving, but it takes time before money appears. Chasing quick jobs gives you real experience, yet it can also keep you doing small tasks without building a stronger identity. The useful question is what should come first: proof of ability or fast income. A good side hustle needs both in the end, but the first step shapes how people see your work.
