

01 SMALL TALK

When you want to try something new, do you usually jump in right away, or prepare first?

Have you ever tried to learn something new while you were busy with work or school?

When was the last time you saved up money for something?

02 POP QUIZ — DOES THIS SOUND NATURAL?

① ~~"My company is very welfare."~~

✓ "My company has great benefits."

회사 복지는 'benefits'나 'perks'로 써요. 'welfare'는 정부 지원금·사회복지 맥락이에요.

② ~~"I resigned my job."~~

✓ "I quit my job."

일상 대화에선 'quit'이 자연스러워요. 'resign'을 쓰면 'resign from my job'처럼 from이 필요해요.

③ ~~"I want to develop myself."~~

✓ "I want to grow professionally."

'자기계발' 직역이에요. 'grow', 'improve', 'work on myself'가 더 자연스러워요.

Career Reset Timing — Quit First or Prepare While Working?

BACKGROUND

커리어 리셋은 갑자기 회사를 그만두고 완전히 다른 일을 시작하는 멋진 선언처럼 보이지만, 실제로는 훨씬 현실적인 계산이 따라와요. 지금 일이 너무 맞지 않거나 성장감이 없을 때도 월급, 월세, 생활비, 이력서 공백 때문에 바로 움직이기는 쉽지 않아요. 그래서 핵심은 퇴사 자체가 아니라 준비 방식이에요. 6개월 정도 돈을 모으고, 포트폴리오를 만들고, 공부나 사이드 프로젝트로 방향을 확인할지, 아니면 일단 멈춰야 에너지와 시간이 생길지 기준이 갈려요. 누군가는 다니면서 준비해야 안전하다고 보고, 누군가는 계속 다니면 결국 아무것도 못 바꾼다고 느껴요. 도전하고 싶은 마음과 현실적인 불안 사이에서 각자의 기준이 갈리는 지점이예요.

READ BEFORE WE TALK

A career reset can sound like a dramatic fresh start, but in real life it is usually a timing problem. Someone may feel stuck, tired, or curious about a new field while still needing salary, rent, daily stability, and a resume that makes sense later. The hard question is whether to prepare quietly while staying employed or stop first to create time and energy. Preparing for six months can feel responsible, but it can also become a way to delay a decision. Quitting first can create focus, but it makes money and uncertainty feel real very quickly. The useful question is not whether quitting is brave. It is what kind of preparation makes a reset believable. A realistic reset usually needs more than courage. It may include savings, a small test project, learning time, feedback from someone in the field, and a plan for explaining the transition later. Without those details, quitting can feel freeing for a week and stressful soon after.
