

01 SMALL TALK

Do you use English more for work, travel, or just for fun?

What's your go-to drink at a cafe these days?

Are you more of a morning person or a night person?

🔍 02 POP QUIZ — DOES THIS SOUND NATURAL?

① ~~"I resigned my job."~~

✓ "I quit my job. / I resigned from my job."

*resign*은 목적어를 바로 못 받아요. 'resign from + job'을 쓰고, 일상에선 'quit'이 훨씬 자연스러워요.

② ~~"My company is very welfare."~~

✓ "My company has great benefits. / good perks."

*welfare*는 형용사가 아니에요. 회사 복지는 *benefits* / *perks*로 표현해요.

③ ~~"I want to develop myself."~~

✓ "I want to grow. / I want to improve my skills."

*develop myself*는 콩글리시 느낌이에요. *native*는 *grow*, *improve my skills*처럼 써요.

English Confidence — Pronunciation, Vocabulary, or Natural Flow?

BACKGROUND

영어 자신감은 발음, 어휘, 자연스러움 중 어디에서 오는지 사람마다 달라요. 발음이 좋아지면 말문을 여는 부담이 줄고, 어휘가 늘면 하고 싶은 말을 더 정확히 할 수 있어요. 하지만 문법이나 단어가 완벽하지 않아도 자연스럽게 반응하고 대화를 이어가는 능력이 자신감을 만들기도 해요. 결국 영어 자신감은 실수하지 않는 힘보다, 실수해도 대화를 계속할 수 있는 감각에 더 가까워요.

READ BEFORE WE TALK

English confidence can come from different places. Good pronunciation helps because people feel less nervous when they think they sound clear. A bigger vocabulary helps because it gives more choices and makes ideas easier to say. Natural flow helps too, because real conversation does not wait for perfect grammar. Many learners chase one perfect skill, but confidence often grows when you can keep the conversation going even after a mistake. Speaking like a native is not only about sounding polished. It is also about reacting, asking again, softening your sentences, and staying in the moment. Confidence becomes real when you can communicate without freezing.
