

01 SMALL TALK

How do you like to start your morning — slow and quiet, or busy right away?

When you start something new, do you stick with it, or stop after a few weeks?

When was the last time you said something out loud in English — at a café, at work, anywhere?

🔍 02 POP QUIZ — DOES THIS SOUND NATURAL?

① ~~"My company is very welfare."~~

✓ "My company has great benefits."

welfare는 명사라 형용사처럼 못 써요. 회사 복지는 benefits/perks로, have 동사와 함께 쓰세요.

② ~~"I want to develop myself."~~

✓ "I want to keep improving."

develop myself는 직역 느낌이라 어색해요. grow, improve, work on myself가 더 자연스러워요.

③ ~~"I resigned my job."~~

✓ "I quit my job."

resign은 목적어를 바로 못 붙여요. 일상에선 quit my job이 제일 자연스러워요.

English Speaking Growth — Abroad, Classes, or One-on-One?

BACKGROUND

영어 회화가 늘었다고 느끼는 순간은 사람마다 달라요. 해외에 가서 매일 부딪히며 늘었다는 사람도 있고, 학원이나 1:1 수업처럼 정해진 시간과 피드백이 있을 때 처음으로 입이 트였다는 사람도 있어요. 문제는 방법보다 지속 가능성이예요. 해외는 몰입도가 높지만 돈과 시간이 많이 들고, 학원은 구조가 있지만 수업 밖에서 말하지 않으면 금방 멈출 수 있어요. 1:1 수업은 피드백이 강하지만 긴장감과 비용이 부담될 수 있죠. 결국 나에게 맞는 방식은 영어를 '공부'가 아니라 실제 말하기 습관으로 바꿔주는 방식이에요.

READ BEFORE WE TALK

People improve their spoken English in very different ways. Some feel they grew the most abroad because they had to speak every day. Others improve through classes because a fixed schedule gives them structure. One-on-one lessons can help because the feedback is personal and fast. The real issue is sustainability. Going abroad creates immersion, but it takes time and money. Classes give you a routine, but speaking can stop outside the classroom. One-on-one lessons can be powerful, but they can also feel expensive or scary. The best method is the one that turns English from study into a speaking habit — one that keeps you talking after the first motivation fades.
