

## 01 SMALL TALK

How do you usually keep in touch with friends — text, call, or social media?

Did you message anyone this morning?  
Who was it?

Who do you talk to the most in a normal week?

## 02 POP QUIZ — DOES THIS SOUND NATURAL?

1 ~~"We are very close friend."~~

✓ "We're really close friends."

두 명 이상이니까 friend가 아니라 friends(복수)예요. "We're close."라고만 해도 자연스러워요.

2 ~~"We promised to meet next week."~~

✓ "We made plans to meet next week."

친구끼리 만날 약속엔 promise보다 make plans / get together가 훨씬 자연스러워요.

3 ~~"I cannot contact to her."~~

✓ "I can't reach her."

contact는 to 없이 바로 목적어를 받아요(contact her). 일상에선 reach가 더 자연스러워요.

## FRIENDSHIP · MAIN DISCUSSION

## Online-Only Friends — Birthday Messages or Real Closeness?

## 🇰🇷 BACKGROUND

온라인에서만 자주 이야기하는 친구도 내 취향, 고민, 생일을 잘 챙겨주면 실제로 가까운 사람처럼 느껴질 수 있어요. 자주 만나지는 않아도 메시지의 빈도, 대화의 깊이, 서로 기억해주는 작은 디테일이 관계의 친밀감을 만들기도 해요. 하지만 온라인 친밀감이 어디까지 진짜 친구인지에 대해서는 기준이 갈려요. 누군가는 직접 만나고 시간을 보내야 가까운 관계라고 느끼고, 누군가는 오프라인보다 온라인에서 더 솔직한 대화를 나눌 수 있다고 느껴요. 만남 횟수보다 서로를 얼마나 알고 기억해주는지가 친구 관계에서 더 중요하게 느껴질 수 있어요.

## 📖 READ BEFORE WE TALK

An online-only friend can feel surprisingly close if they remember your birthday, understand your taste, and listen to your worries. Even without meeting often, regular messages, honest conversations, and small remembered details can create real closeness. Still, people disagree on where online friendship becomes real friendship. Some feel that a close friend should share offline time and everyday life. Others feel that online conversations can be more honest than casual offline meetings. The question is whether friendship depends more on physical time together or on attention, memory, and emotional honesty. Online friendship also tests how people define effort. Some people care about physical time together, while others care more about remembering details, replying sincerely, and showing up emotionally.
