

01 SMALL TALK

When was the last time you had a really good night's sleep?

Do you do anything to relax after a long, stressful day?

Would you rather spend money on a nice dinner or a relaxing massage?

02 POP QUIZ — DOES THIS SOUND NATURAL?

① ~~"I spend money to shopping."~~

✓ **"I spend money on shopping."**

'spend money on + 명사/-ing'가 고정 패턴이에요. 'to'는 안 써요.

② ~~"The price is too expensive."~~

✓ **"It's too expensive. / The price is too high."**

expensive는 물건·서비스에 써요. price는 high/low로 표현하는 게 정확해요.

③ ~~"I want to save my money for future."~~

✓ **"I want to save up for the future."**

일반적 의미면 my는 빼고, future 앞엔 the를 붙여요. 'save up'이 더 자연스러워요.

Wellness Spending — Better Than Luxury or Just Another Flex?

BACKGROUND

운동보다 회복, 숙면, 사우나, 건강한 식단에 돈을 쓰는 분위기가 점점 자연스러워지고 있어요. 예전에는 건강 소비가 운동복이나 PT처럼 활동적인 쪽에 가까웠다면, 이제는 잘 쉬고 컨디션을 회복하는 것도 중요한 관리로 보이죠. 하지만 회복에 쓰는 돈도 결국 소비이기 때문에, 어디까지가 건강한 투자이고 어디부터가 또 다른 플렉스인지 기준이 필요해요. 내 몸이 실제로 좋아지는지, 아니면 기분만 잠깐 좋아지는지가 갈림길이에요.

READ BEFORE WE TALK

Wellness spending has moved beyond gyms and workout clothes. People now spend on recovery, sleep products, saunas, supplements, healthy meals, and anything that promises better condition. That can be a real shift, because rest is part of health, not just a reward after hard work. But wellness can also become another kind of flex if the product is expensive, trendy, and only feels good for a short time. The line depends on one thing: does the spending change your daily habits, or does it just give you the feeling of being healthy for a moment? Recovery is valuable, but it still needs honest standards. And smart shopping is not only about the lowest price — delivery, reviews, brand trust, and how long you'll really use something all matter. Two people can buy the same item for completely different reasons.
