

01 SMALL TALK

When was the last time you went to a festival or a big event?

Do you enjoy busy, crowded places, or do you usually try to avoid them?

Do you visit the famous spots in your own city, or do you keep saving them for later?

02 POP QUIZ — DOES THIS SOUND NATURAL?

1 ~~"The schedule is very tight."~~

✓ "The schedule is really tight. / We're on a tight schedule."

회화에서는 'very tight'보다 'really tight'나 'on a tight schedule'이 더 자연스러워요.

2 ~~"I want to go travel."~~

✓ "I want to travel. / I want to go on a trip."

'go travel'은 어색해요. 그냥 'travel'이나 'go on a trip'으로 쓰세요.

3 ~~"I took a rest in hotel."~~

✓ "I rested at the hotel. / I just relaxed at the hotel."

'take a rest'는 콩글리시예요. 'rest/relax'를 쓰고, 장소는 'at the hotel'이 맞아요.

Haeundae Sand Festival — Local Must-Go or Tourist Crowd?

🇰🇷 BACKGROUND

부산에 살면 해운대 모래축제처럼 유명한 행사를 오히려 더 쉽게 미루게 돼요. 언제든 갈 수 있을 것 같고, 사람 많은 곳에 굳이 들어가야 하나 싶은 마음도 생기죠. 하지만 막상 친구가 부산에 놀러 오거나, 날씨가 좋거나, 사진으로만 보던 장면을 직접 보면 생각이 달라질 수 있어요. 같은 축제라도 누군가에게는 피곤한 인파이고, 누군가에게는 부산에 사는 재미를 확인하는 하루가 될 수 있어요.

📖 READ BEFORE WE TALK

Local festivals are tricky because they feel both familiar and special. A place like Haeundae can feel too crowded to enjoy, especially if you live nearby and already know how busy it gets. But a famous event can also become meaningful when you go with the right person, catch good weather, or see your city through a visitor's eyes. The real question is not just whether the festival is popular. It is whether the crowd, the waiting, the photos, and the atmosphere feel worth the effort. Some people avoid tourist spots because they want comfort. Others go because a city feels different when everyone is outside together. Travel choices also reveal personality fast: comfort, money, planning, photos, and how we handle small problems. The same trip can feel romantic to one person and exhausting to another, because we all want different things from it.
