

01 SMALL TALK

Do you usually eat breakfast, or do you skip it?

What did you have for lunch today?

When you order food, do you check the price first or just order what you want?

02 POP QUIZ — DOES THIS SOUND NATURAL?

1 ~~"My condition is not good today."~~

✓ "I'm not feeling well today."

'condition'(컨디션)은 콩글리시예요. 몸이 안 좋을 땐 'feel well' 또는 'under the weather'를 써요.

2 ~~"I am on a diet from Monday."~~

✓ "I'm starting a diet on Monday."

미래엔 'starting ~ on Monday', 이미 시작했으면 'since Monday'예요. 'from Monday'는 어색해요.

3 ~~"I want to make exercise habit."~~

✓ "I want to build an exercise habit."

습관은 'make'가 아니라 'build/develop'을 쓰고, 'habit' 앞엔 관사 'an'이 필요해요.

Healthy Food Trends — Good Enough to Keep Eating?

🇰🇷 BACKGROUND

저속노화식이나 건강한 메뉴가 유행해도, 맛이 내 기준에 맞지 않으면 오래 유지하기 어려워요. 건강에 좋다는 걸 알아도 매일 먹기에는 가격, 준비 시간, 포만감, 만족감이 모두 중요하죠. 어떤 사람은 맛이 70점이어도 몸이 가벼우면 계속 먹을 수 있고, 어떤 사람은 맛이 부족하면 금방 포기해요. 건강식의 핵심은 완벽한 식단보다 오래 반복할 수 있는 기준을 찾는 거예요.

📖 READ BEFORE WE TALK

Healthy food trends sound great until they become normal, everyday meals. A salad bowl, grain rice, or clean menu may look good online, but people still have to eat it again and again. Taste, price, time, fullness, and convenience decide whether the habit lasts. Some people can accept food that tastes only okay if it makes their body feel better. Others need meals to feel satisfying, not just healthy. The real question is not whether healthy food is good. It is what level of taste and effort makes a healthy routine realistic enough to keep after the trend fades. We often delay health choices because life feels busy and the results feel far away. The gap between knowing what is good and actually doing it gets wider when time, money, taste, and habits get in the way.
