## 02 POP QUIZ — DOES THIS SOUND NATURAL?

1 ~~"I want to save my money for future."~~

✓ "I want to save up for the future."

일반적인 의미라 'my'는 빼고, 'future' 앞에는 'the'가 필요해요. 'save up'을 더 자주 써요.

2 ~~"The price is too expensive."~~

✓ "It's too expensive. / The price is too high."

'expensive'는 물건에, 'price'는 'high/low'로 써요.

3 ~~"I spend money to shopping."~~

✓ "I spend money on shopping."

'spend money on + 명사/-ing'가 고정 패턴이에요. 'to'는 안 돼요.

## Payday Savings — Save First or Use What Is Left?

## 🇰🇷 BACKGROUND

월급이 들어오자마자 저축할지, 한 달을 살아보고 남은 돈을 넣을지는 돈 관리 방식이 크게 갈리는 지점이에요. 먼저 저축하면 목표를 지키기 쉽지만 갑작스러운 지출이 생기면 생활이 뻘뻘해질 수 있어요. 남은 돈을 저축하면 현실적이지만, 외식이나 작은 결제가 쌓이면 남은 돈이 거의 없을 수도 있죠. 핵심은 의지보다 구조예요. 내 소비 패턴을 알고 버틸 수 있는 방식으로 정해야 오래 갑니다.

## 📖 READ BEFORE WE TALK

Payday saving is a battle between structure and flexibility. Saving first protects the goal, because the money leaves before daily spending can use it. But if the amount is too high, the month can feel tight and stressful. Saving what is left feels more realistic, yet it often fails because small choices quietly use up the money. The best method depends on your personality, your income, your fixed costs, and how often surprise costs appear. Money habits last longer when the rule is strict enough to guide you, but flexible enough to survive real life.
