

01 SMALL TALK

When you get paid, what's the first thing you buy for yourself?

Do you check your bank app often, or almost never?

With small things like coffee, are you more of a saver or a spender?

02 POP QUIZ — DOES THIS SOUND NATURAL?

1 ~~"I spend money to shopping."~~

✓ "I spend money on shopping."

'spend money on + 명사/-ing'가 고정 패턴이에요. 'to'는 안 써요.

2 ~~"The price is too expensive."~~

✓ "The price is too high."

'expensive'는 물건에, 'price'는 'high/low'로 표현하는 게 자연스러워요.

3 ~~"I want to save my money for future."~~

✓ "I want to save up for the future."

일반적 의미라 'my'는 빼고, 'future' 앞엔 'the'를 붙여요. 'save up'을 더 자주 써요.

Savings, Stocks, or Crypto — What Feels Safest?

BACKGROUND

적금, 주식, 코인 중 무엇이 안전한지는 사람마다 다르게 느껴져요. 적금은 수익이 크지 않아도 예측 가능해서 마음이 편하고, 주식은 공부하면 기회가 있다고 느껴질 수 있어요. 코인은 빠르게 움직여서 매력적이지만 그만큼 불안도 커요. 결국 안전하다는 말은 수익률보다 내가 이해하고 버틸 수 있는지에 더 가까워요.

READ BEFORE WE TALK

Safety in money decisions does not mean the same thing to everyone. A savings account feels safe because the result is predictable, even if the return is small. Stocks can feel reasonable to someone who studies companies and accepts the ups and downs. Crypto may feel exciting because it moves fast, but that speed can also create stress and quick, impulsive choices. People often compare options by return, but emotional safety matters too. If someone cannot sleep, explain the choice, or handle a loss, the investment may not be safe for them — even if others call it an opportunity. A friend's profit screenshot can make a safe deposit feel boring, while a sudden loss can make every risk feel reckless. In the end, people are not only judging numbers; they are judging how much uncertainty they can emotionally handle.

WORDS YOU MIGHT NEED

play it safe — 안전하게 가다 where I stand — 내 상황이 어떨지

on a tight budget — 돈이 빠듯한 break even — 본전치기하다

skin in the game — 내 돈이 걸려 있는

it keeps me up at night — 그것 때문에 밤잠을 설쳐요
