

01 SMALL TALK

Do you like games or apps that show your score going up?

What's one app you open on your phone almost every day?

When you do well, do you prefer a 'good job' or a small reward?

02 POP QUIZ — DOES THIS SOUND NATURAL?

- 1 ~~"I used AI to make my report."~~
✓ "I used AI to write my report."
report는 write/do와 써요. make a report는 '신고하다'로 들려요.
- 2 ~~"AI is very convenient for work."~~
✓ "AI is really handy for work."
문법은 맞지만 very convenient는 딱딱해요. 원어민은 handy를 자주 써요.
- 3 ~~"AI is developing very fast."~~
✓ "AI is moving really fast these days."
기술 얘기엔 develop보다 move fast/evolve가 더 자연스러워요.

03 오늘의 워업

각 라운드 손가락으로 A 또는 B. 한 라운드마다 한 명 짧게 이유.

WARM-UP

Would You Rather (5분)

1

Get an AI score after every English talk

VS

Get no score and just keep talking

2

See one big number for your English

VS

See a short tip on what to fix next

3

Know your pronunciation score is low

VS

Hear nothing and just feel okay

4

Practice with an AI that scores you

VS

Practice with a friend who only chats

AI · MAIN DISCUSSION

AI English Scores — Motivation or Pressure?

🇰🇷 BACKGROUND

AI가 영어 실력을 점수로 보여주면 실력이 보이는 것 같아 동기부여가 될 수 있어요. 발음, 유창성, 정확도 같은 숫자는 내가 무엇을 고쳐야 할지 알려주는 기준이 되죠. 하지만 점수가 너무 앞에 오면 말하기가 대화가 아니라 시험처럼 느껴질 수 있어요. 낮은 점수 때문에 더 말하기 싫어지는 사람도 있을 수 있고요. 좋은 피드백은 숫자보다 다음에 무엇을 해보면 좋을지 알려줘야 해요.

📖 READ BEFORE WE TALK

AI English scores can make progress visible. A number for pronunciation, fluency, or accuracy gives learners a target, and it can turn practice into a small challenge. For some people, that is motivating because improvement becomes measurable. For others, the score can make speaking feel like an exam. A low number may reduce confidence, especially when the learner does not understand why it happened. Language is not only accuracy; it also includes courage, timing, and connection. The best feedback should explain the next step, not only judge the result. A score is useful when it helps people speak more, not when it makes them speak less.

AI at work can feel like an advantage because it helps people draft, summarize, and learn faster. It can also create pressure when coworkers seem to use it better, or when the company expects everyone to adapt quickly. The real question is whether AI reduces stress or quietly raises the standard for everyone.

💡 WORDS YOU MIGHT NEED

it keeps me going — 계속하게 만들어요

stress me out — 스트레스 받게 해요

a double-edged sword — 양날의 검

it feels personal — 개인적으로 느껴져요

try this next — 다음엔 이거 해봐

go for it — 그냥 질러봐요

🗣️ TRY THESE PHRASES

Honestly, a score would ___ me — but it really depends on the day.

It depends on my mood, but usually seeing a number makes me feel ___.

When I think about it, a low score actually ___ for me.

I'd say it pushes me to try harder, because ___.

⚡ EASY ENTRY

- 1 Are you more of a 'check my score the second it pops up' or a 'just keep going and ignore the number' person?
- 2 When was the last time an app or game gave you a score or rating? What was it for?
- 3 Quick — if an AI rated your English today, which number would you peek at first: pronunciation, fluency, or accuracy?
- 4 On a scale of 1 to 5, how often do you use an app or AI to practice or check your English?

🗣️ MAIN DISCUSSION

Q1. Would an AI speaking score motivate you or make you nervous? Why?

↳ *Honestly, a score would ___ me — but it really depends on the day.*

↳ *It depends on my mood, but usually seeing a number makes me feel ___.*

Q2. Can a low score make you stop speaking, or does it push you to try harder?

↳ *When I think about it, a low score actually ___ for me.*

↳ *I'd say it pushes me to try harder, because ___.*

Q3. What helps you more — a score, or advice on what to try next? Why?

↳ *I lean more toward advice, because a number alone doesn't tell me ___.*

↳ *What helps me decide is whether I know ___ to fix next time.*

Q4. Would you share your English score with a friend or teacher? Why or why not?

↳ *In my case, I'd share it with ___ — ___.*

↳ *The thing is, sharing my score feels ___ , so ___.*

Q5. Should apps focus more on your own progress or on ranking with others?

↳ *The way I see it, apps should focus more on ___.*

↳ *Compared to ranking with others, tracking my own progress feels ___.*
