

01 SMALL TALK

How do you usually get to work or school these days?

What's one app you open almost every day?

Do you prefer learning new things in the morning or at night?

02 POP QUIZ — DOES THIS SOUND NATURAL?

① ~~"AI is developing very fast."~~

✓ "AI is advancing really fast. / AI is moving so fast these days."

틀린 건 아니지만 'developing very fast'는 교과서 느낌이라, 회화에선 advancing/moving에 really/so를 붙여요.

② ~~"AI is very convenient for work."~~

✓ "AI makes work so much easier. / AI is really handy for work."

도구·기술에 convenient를 붙이면 콩글리시처럼 들려요. handy나 makes ~ easier로 풀어요.

③ ~~"I used AI to make my report."~~

✓ "I used AI to write my report. / to put my report together."

보고서는 make가 아니라 write 또는 put together예요. make a report는 어색해요.

Career English — Native Lessons or Daily AI Practice?

BACKGROUND

커리어 영어를 늘리고 싶을 때, 원어민 수업을 가끔 듣는 게 나은지 AI 스피킹을 매일 짧게 하는 게 나은지 고민할 수 있어요. 원어민 수업은 표현의 뉘앙스와 실제 반응을 배울 수 있지만 횟수가 적고 부담이 있을 수 있어요. AI 루틴은 자주 말하게 해주지만 사람과의 긴장감은 부족할 수 있죠. 결국 내 목표가 면접인지, 회의인지, 네트워킹인지에 따라 필요한 연습이 달라져요.

READ BEFORE WE TALK

Career English practice needs both routine and realism. A native-speaker lesson gives strong feedback on tone and natural phrasing. But lessons may happen only once a week and can feel expensive. Daily AI practice is easy to repeat, and talking a lot builds fluency. The weak point is that AI cannot fully copy a real meeting or interview with a real person. The best choice depends on your goal. Many people mix both: frequent AI practice for confidence, and human feedback for nuance. At work, AI can feel like a big help because it lets you draft, summarize, and learn faster. But it can also add pressure when everyone is expected to adapt quickly. The real question is whether AI lowers your stress or quietly raises the standard for everyone.

- 3 Quick — if you had to pick one for career English: a native teacher, an AI tutor, or a study buddy?
