

## 01 SMALL TALK

How was your week? Did you talk to anyone new?

Do you usually say hi first, or wait for others to start?

Are you more of a talker or a listener in a group?

## 02 POP QUIZ — DOES THIS SOUND NATURAL?

1 ~~"I want to develop myself."~~

✓ "I want to grow professionally."

'develop myself'는 실험실 느낌이라 어색해요. grow, improve, develop my skills로 표현해요.

2 ~~"I resigned my job."~~

✓ "I quit my job."

resign 뒤엔 from이 필요해요. 일상 회화에선 그냥 quit이 자연스러워요.

3 ~~"My company is very welfare."~~

✓ "My company has great benefits."

welfare는 형용사가 아니에요. 회사 복지는 benefits나 perks로 표현해요.

# Networking English — Better Phrases or More Courage?

## BACKGROUND

네트워킹 영어는 좋은 표현을 아는 것만으로 해결되지 않아요. 처음 말을 거는 용기, 어색한 침묵을 넘기는 힘, 상대방에게 부담스럽지 않게 나를 소개하는 감각이 같이 필요해요. 표현을 많이 외워도 막상 행사장에서 눈이 마주치면 말이 안 나올 수 있고, 반대로 간단한 표현만 있어도 태도가 편하면 대화가 이어질 수 있어요. 실력은 문장과 용기 사이에서 만들어져요.

## READ BEFORE WE TALK

Networking English is not only about having better phrases. Useful expressions help, but the hardest part is often starting the conversation, keeping it warm, and introducing yourself without sounding stiff. A person may know polished sentences and still freeze in the room. Another person may use simple English but create a comfortable mood through curiosity and confidence. Networking also needs listening, follow-up questions, and knowing when to end the conversation naturally. The real skill is a mix of language and social courage. Good English opens the door, but courage helps someone actually walk through it.
