

01 SMALL TALK

Are you more of a morning person or a night person?

What time did you wake up today?

Do you have coffee, tea, or nothing in the morning?

02 POP QUIZ — DOES THIS SOUND NATURAL?

- ① ~~"I want to make exercise habit."~~
✓ "I want to build an exercise habit."

습관은 make가 아니라 build/start/get into와 어울리고, a habit처럼 관사가 필요해요.

- ② ~~"I am on a diet from Monday."~~
✓ "I'm starting a diet on Monday."

미래에 시작할 거면 from이 아니라 starting/on Monday가 자연스러워요.

- ③ ~~"My condition is not good today."~~
✓ "I'm not feeling well today."

condition은 콩글리시예요. 몸 상태가 안 좋을 땐 I'm not feeling well을 써요.

Morning Routines — Healthy Reset or Unrealistic?

🇰🇷 BACKGROUND

아침 운동이나 아침 약속이 좋아 보이는 이유는 하루를 먼저 잡는 느낌이 있기 때문이에요. 하지만 저녁 약속, 야근, 늦은 취침이 익숙한 사람에게 아침 루틴이 너무 이상적으로 느껴질 수 있어요. 건강을 위해 밤 시간을 줄이면 컨디션은 좋아질 수 있지만, 친구를 만나는 즐거움이나 쉬는 시간도 줄어들 수 있죠. 결국 아침형 생활은 의지보다 내 생활 리듬과 인간관계에 맞아야 지속돼요.

📖 READ BEFORE WE TALK

Morning routines are attractive because they make the day feel intentional. Exercise, breakfast plans, study time, or quiet walks before work can create a sense of control. But the routine is not realistic for everyone. Late work, social plans, poor sleep, and different energy patterns can make early mornings feel like punishment. Moving life into the morning may improve health, but it can also reduce evening freedom. The question is not whether mornings are better in general. It is whether the routine fits the person's real schedule, relationships, and recovery needs well enough to continue without resentment.
