

01 SMALL TALK

How was your weekend — did you go out or stay home?

Do you prefer meeting friends in person, or chatting online?

When you shop online, do you buy quickly or look around a lot?

🔍 02 POP QUIZ — DOES THIS SOUND NATURAL?

1 ~~"We meeting for 3 months."~~

✓ "We've been seeing each other for 3 months."

과거부터 지금까지 이어지면 have been -ing. 연애 맥락에선 meet보다 see each other / date가 자연스러워요.

2 ~~"I have a some on going."~~

✓ "There's someone I'm kind of seeing."

한국어 '썸'의 some은 영어로 안 통해요. a thing going (with someone) 또는 the talking stage로 풀어요.

3 ~~"He gave me a big impression."~~

✓ "He made a big impression on me."

인상은 make / leave an impression on someone이 고정 표현이에요. give는 안 써요.

WARM-UP

Two Truths, One Lie (8분)

1 I have used a dating app before, but only to look around, not to meet anyone.

2 I once matched with someone for weeks, but we never actually met in real life.

3 I met one of my close friends on a dating app — not for dating, just for talking.

Dating Apps — Really Meeting or Just Browsing?

🇰🇷 BACKGROUND

데이팅 앱을 켜는 사람이 모두 실제 만남을 원하는 건 아니에요. 누군가는 진지하게 사람을 만나려고 쓰지만, 누군가는 그냥 둘러보거나, 심심해서 대화하거나, 내가 어떤 사람에게 관심을 받는지 확인하는 용도로 쓰기도 해요. 그래서 앱에서 매칭되는 것과 실제로 만나는 것 사이에는 꽤 큰 차이가 있어요. 앱이 문제가 아니라, 각자가 앱에 들어온 목적을 얼마나 솔직하게 알고 있는지가 중요해요.

📖 READ BEFORE WE TALK

Dating apps can look like an easy way to meet people, but many users are not there for the same reason. Some want a real date. Others are just browsing, chatting when bored, checking their appeal, or keeping their options open. That gap can cause frustration, because a match can feel important to one person and casual to another. The app itself is not always shallow, but it puts different levels of seriousness in the same space. A better question is what people are honestly looking for when they open the app, and whether their actions match that intention. Dating standards are rarely only about romance. They also show how people think about fairness, attention, pride, money, privacy, and emotional safety.
